## Projects

### Ecommerce Website(VASTRA)

- Developed a responsive platform, enhancing the user shopping experience.
- Integrated product categories, filters, and advanced search for easy navigation.
- Implemented secure payment gateways and a streamlined checkout process.
- Designed dynamic product pages with customer reviews to boost engagement.
- Developed real-time order tracking and notifications for customers.
- Leveraged personalized recommendations to increase sales.
- Optimized for mobile devices to ensure a seamless experience.
- Managed promotional campaigns and loyalty programs to improve retention.

### Movie Booking App

- Developed a user-friendly movie booking platform, enabling users to browse movies, view showtimes, and book tickets seamlessly.
- Built real-time seat availability and booking management, ensuring up-to-date information for users.
- Implemented secure payment integration, allowing multiple payment methods for smooth transactions.
- Created user accounts for personalized experiences, including booking history and preferences management.
- Designed advanced search and filter functionality for easy movie discovery by genre, time, and location.
- Optimized the website for mobile responsiveness, ensuring full functionality across all devices.
- Enhanced user engagement with features like movie ratings, reviews, and tailored recommendations.
